

## Feedback for RRMP Research Presentation [Formative]

Tutor completing formative feedback: Karen Outram	Student number: Fahad Abdallah

Thank you very much for submitting your formative Research presentation proposal on time.

For the actual summative you need to narrow down the key core aspects that you feel are critical for the summative study. At the moment, whilst all your suggestions do feed into the core subject matter one way or another, you do have too many suggested tangents in the study. Reflect which parts are the most important to your study and deeply research those to enable an appropriately critical outcome for the summative.

If your subject is similar to your Literature Review, you need to make sure that you engage in research/discussion that comes from a completely different angle than your Literature Review to avoid self-plagiarism. You have to 'build' upon the subject from the Literature review and not merely just re-interpret the subject.

I look forward to your summative submission, in the meantime please reflect on all of the above and the very best of luck for the summative itself.

With best wishes

Karen
